## GRANT OF OPTIONS ISSUED PURSUANT TO EMPLOYEE SHARE OPTION PLAN

RPMGlobal Holdings Limited (ASX: RUL) (the **Company**) hereby advises, that in accordance with Listing Rule 3.10, the Company has granted 1,389,605 options to its key managers representing the Long Term Incentive allocation for those managers for FY2021.

For FY2021, the Board has introduced a structured long-term incentive grant structure whereby, in addition to an annual discretionary grant to a number of non-executive personnel based on performance of those personnel, the Company's senior management personnel will receive an annual grant of options calculated using a formula of a Board approved percentage of their salary multiplied by the VWAP price for the Company in the preceding twenty trading days.

As a reflection of the value of the zero-exercise price option, the Board has introduced a new market-based hurdle whereby 50% of the options will vest three years from the grant date if RPM's share price is at least 2.5% higher than the percentage change in the S&P ASX 300 Accumulated index (AXKOA) over the same period and the remaining 50% will vest if the percentage change is at least 7.5% higher than the percentage change in the AXKOA over the same period. Options will expire five years after the grant date, or earlier if the vesting criteria are not achieved or a service condition is not maintained over the period. The balance of the terms are materially consistent with the terms of the employee share option plan last approved by shareholders at the Company's 2019 AGM.

As at the date of this announcement, the company's options on issue are as follows:
